

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## PROPERTY AND INCOME TAX DUTY.

By the 2nd Section of the PROPERTY and INCOME TAX Act of 5 and 6 Victoria, cap. 35, it is provided that no DUTY shall be charged lower than one penny.

In conformity with this regulation the following TABLES at 7*d.* and 3½*d.* in the Pound have been formed, so as to show *at sight* the exact amount of INCOME for each penny of DUTY. If the exact amount of Income sought (under £200 in the 7*d.* Table or £400 in the 3½*d.* Table) be not found, the next sum lower in amount will show the *Duty* payable.

As the risk of error is much limited by obtaining the result *at sight*, these Tables will be found particularly useful to all persons collecting, paying, or deducting the Duty, either on large amounts, or on sums containing fractions of a pound, as on Tithe Rent Charge, Dividends on Stock, Annuities, &c., &c.

---

As *data* for future comparison, the following extracts from Parliamentary Documents may prove interesting :

The Assessments under each of the five schedules, A, B, C, D, and E, are as follows :

- A. On Owners of Lands, Tenements, Hereditaments, &c.
- B. On Occupiers of                      do.
- C. On Annuitants and persons having property in Public Securities.
- D. On Traders, &c.—For Profits on Trades, Professions, &c.
- E. On the Income of Public Officers.

By the following Acts of Parliament the Duty was fixed at so much in the Pound, viz.,

		A.	B.	C.	D.	E.

1841 . . . . .	18,656,414	. . . . . 2,396,033

*Note.*—We find that the population of Great Britain was about 12 millions in 1812, and rather above 18½ millions in 1842.

The produce of the 10 per cent. or 2s. in the Pound Property Tax in 1812, was . . . . . £13,628,454

If the wealth of the country has increased in the same ratio as the population, the Tax of 7d. in the Pound should produce rather more than . . . . . 4,500,000

Or about  $\frac{3}{4}$  of a million more than the amount estimated by

Sir Robert Peel.
